* Drip Coffee (Regular or Decaf) *

We use freshly roasted Stumptown Coffee beans in all of our coffee offerings. Not only is the taste bold and satisfying, you can feel good knowing that the coffee you're enjoying is the product of direct trade relationships with coffee farmers from around the world, providing sustainable, livable wages resulting in the highest coffee quality.

Coffee maintains its optimum freshness for approximately an hour and a half when kept in an airtight container. We offer three options/sizes available depending on the needs of your meeting. Use of airpots or a thermal pot are ideal for ease of service, cleanliness, and professional look, and better for the environment than disposable containers. We just ask you return them to us after your meeting. Prices include cups, stir sticks, sweeteners, cream, & napkins.
